MINDEN, FRIDAY, MAY 6, 1892

PERSONAL.

The Rev. W. H. Adams, Haliburton, has this week been visiting at the Methodist Parsonage in Minden.

Mr. A. Clark, of Fenelon Falls, will be in Minden on Tuesday next, 10th May, when he will have a fine display of samples for the seasons clothing demand.

Mr. M. Revell, of Cobocook, has got his drive of logs clear through to Gull Lake, he has made rapid progress this season, having a good gang of men with him.

Mrs. Goodman wife of Mr. John Goodman of the Minden Carding Mills, was stricken down on Monday evening last by a severe attack of paralysis; she had been in very good health up to the time of the attack and now lies in a very critical condition.

Rev. J. Hughes Jones of Peterboro officiated in St. Paul's Church, Minden, and also at Gelert on Sunday last, when there was a good attendance; he is expected to return this week to take up his permanent residence here, and hope he will be amply successful in his new field of labor. Mr. Jones comes highly recommended as a faithful and efficient Christian worker.

J. H. Harvey, Esq., J. P. of Cobocook, paid Minden a visit on Wednesday last having business in the Div Court after which he made several social calls upon his friends in the village. Mr. Harvey is an energetic business man who has many warm friends in the back country, who were all delighted to hear that he had, for the present at least, given up his intention of going west and will settle down in Cobocook where he has some idea of starting an important industry.

LOCAL.

SUBSCRIBERS for the Echo Only \$1.00.

WANTED:—A good smart boy to learn the printing business. Apply at once at this office.

COOK WANTED:—At the Dominion Hotel, Minden; to a competent cook good wages would be paid, apply to J. Pym.

BIRTH.

At the Township of Dysart on Wednesday, May 4th, 1892, the wife of Mr. T. G. Hazlett, of a son.

DIV COURT:—His Honor Judge Dean presided over the sitting of the 1st Div Court here on Wednesday last some nine cases were disposed of inside of three hours none of the cases being of any very special importance.

MAGISTRATE'S COURT:—Two respectable citizens in this locality were brought before a bench of Magistrates in the town hall on Wednesday last charged with stealing hay. It came out in evidence that one of the parties had bought the hay and made a payment of \$5 upon it and that he employed the other man to draw it for him, so that the case was summarily dismissed.

Oh, What a Cough!

Will you heed the warning. The signal perhaps of the sure approach of that more terrible disease Consumption. Ask yourselves if you can afford for the sake of saving 50c., to run the risk and do nothing for it. We know from experience that Shiloh's Cure will cure your cough. It never fails.

Epworth League Notes

Special to the Echo.

THE members of the Epworth League had a successful practice last Monday evening, and in consequence a good display of local talent may be expected at the entertainment to be given next Monday evening, to commence at 7.30 sharp. There is no admission fee and all who can should attend as this is to be the last meeting till the League is reopened in the fall, when we hope new names will be added and more enthusiasm taken in pushing on such a good cause. The motto of the above Society is as follows:

LOOK UP, LIFT UP.

BEATTY'S TOUR OF THE WORLD:—Ex-Mayor Daniel F. Beatty, of Beatty's Celebrated Organs and Piano's, Washington, New Jersey, has returned home from an extended tour of the world. Read his advertisement in this paper and send for catalogue—24

SHILOH'S CONSUMPTION CURE.

1. The first of these is the fact that the majority of the population of the United States is now living in urban areas. This is a result of the process of urbanization, which has been going on since the beginning of the 20th century. The population of the United States has increased from about 100 million in 1900 to over 200 million in 1960. At the same time, the population of rural areas has decreased from about 100 million in 1900 to about 50 million in 1960. This has led to a concentration of the population in urban areas, which has had a number of important consequences for the development of the United States.

MINDEN, FRIDAY, MAY 6, 1892

PRACTICAL POULTRY RAISING

By T. A. WILLITTS, WESTON, ONT.

CONTINUED.

Now-a-days we hear farmers in the older Provinces complain that their land is run down, and in consequence they cannot grow the crops that they used to thirty years ago, this with the competition from the immense grain fields of the North-West, where wheat can be grown at less cost, in greater abundance and of better quality, are fruitful sources of complaint.

Why not grow something else that will meet with a ready sale, and that offers a reasonable probability of being remunerative. It will be generally admitted that those farmers in Ontario and Quebec who pay the most attention to dairying and stock-raising are much more successful in their calling than their neighbours who depend almost entirely on grain growing; I think I am putting it mildly when I say that very few farmers will dispute this.

Now, we will compare cattle raising with growing spring chickens; you raise a steer and sell him when three years old, weighing a thousand pounds for four cents per lb. live weight, thus receiving forty dollars for an animal that you have fed for thirty six months, and have kept housed in your barn for nearly half of that time, and which has had to be attended either by yourself or your man every day that it has been housed.

Now, what do you propose to charge for labour? To say nothing of the feed, in arriving at an estimate of the cost of that steer.

We will figure a little on the cost of producing a thousand pounds of spring chickens; two hundred pairs of chicks of the right breed, will weigh a thousand pounds at the age of eleven weeks, and it should not cost over four cents per lb. to grow them; leaving their total cost, exclusive of the eggs from which they were hatched, forty dollars; but the cost of the eggs is an important item, you had to set them about the first of February, when they were worth thirty cents per dozen, and we will suppose that you set seven hundred, this gives a liberal allowance for unfertile eggs, and casualties after the chicks hatched out, thus making the cost of your chicks \$57.50.

These chicks if placed on the Toronto or Montreal markets about the end of May will bring readily 80c. per pair, thus realizing the snug sum of \$160.00, of which \$102.50 is profit, and it has taken just fourteen weeks from the time you set the eggs. Now, what about that steer? If he cost you nothing for feed, and you know only too well that he did, he has still cost three years of labour, which is about equivalent to what you get for him. Your thousand pounds of chickens give you over 150 per cent. more clean profit than the thousand pounds of beef.

Don't believe that such a price can be obtained; we know that it can be met with your ideas of it; we will say that you only realize 60c., you still have left the

spectable sum of \$62.50, as clear profit. Even if you are now satisfied that this price can be obtained, you perhaps doubt your ability to handle such a flock; and we are perhaps progressing a little too rapidly, but I have made this comparison of beef and poultry growing to attract your attention, to what I shall subsequently have to say on this subject. I don't wish you to think for a moment that you could accomplish this with your present methods: neither could you harvest forty acres of grain without assistance, if you used the old sickle of fifty years ago; but the modern self-binder enables you to easily dispose of such a crop.

You are quite convinced that modern agricultural machinery is an absolute necessity to every farmer who desires to keep pace with his neighbors.

Then why do you still cling to the time honored methods that were in vogue when Noah's lone pair stepped into the Ark, in the management of your poultry.

Guidance to Subscribers

AGAIN it is necessary for us to remind those who have not paid their subscriptions to the ECHO, that we are in need of CASH, and call upon such to do so without further delay. It will benefit both yourselves as well as the ECHO to a great extent. For the information of those who have wrong ideas

of the law respecting newspapers, we publish again a few clauses of the same:

1.—Any person who takes a paper regularly from the post office, whether directed in his name or another's, or whether he has subscribed or not, is responsible for payment.

2.—If a person orders his paper discontinued, he must pay all arrears, or the publisher may continue to send it until payment is made, and then collect the whole amount, whether the paper is taken from the office or not.

3.—The courts have decided that refusing to take newspapers or periodicals from the post office, or removing and leaving them uncollected for, while unpaid, is "prima facie" evidence of intentional fraud.

Sudden Changes.

A cold, or exposure, many cause the poisonous acids in the blood to clog its circulation. This is rheumatism. Clark's Lightning Liniment will stop the pain at once. It should be taken both internally and externally if the attack is severe, and it affords instant relief. If the pain appears again, it should be met with the same treatment, until a cure is effected. This wonderful preparation has worked some remarkable cures among rheumatic sufferers. Where once tried, it is always used after. Sold by all druggists; price 50 cents. Clark Chemical Company, Toronto, New York.

Cheap Trip to Europe.

Editor James of "THE STATESMAN," Bowmanville, goes to Europe nearly every summer in charge of a tourist party and has got travel in the Old Land reduced to a system and the expenses down very fine. He has issued a pamphlet containing cheap excursion rates and telling how and when to go, what to wear, what baggage to take and other useful information for ocean travellers. He has lowest rates with steamship and railway lines, hotels, etc., and all who buy tickets from him get the benefit. He is agent for leading steamship lines sailing from New York, Halifax and Montreal and does a big ticket business all the year round. He leaves with his tourist party for 1892 about July 1st for a trip through Scotland and England. Mrs. James will accompany him. We want any of our readers who join Mr. James' party to send us for publication letters descriptive of their travels and we will gladly mail this paper to them during their absence if they will give us their address. In writing address, M. A. JAMES, publisher, Bowmanville, Ont., and do us the favor of mentioning this paper to him.

Many Ladies

have written that Clark's Catarrh Cure has relieved them, restoring perfectly in every sense. Through gratitude they have consented that their names be published. Yet the Clark Chemical Company will not use this means to advertise their remedy. They will not parade the sufferings of any one, or invade the sacred privacy of any home. Any sufferer from catarrh, I recommend Clark's Catarrh Cure, and good word is worth more than the public certificate. Clark Chemical Company, Toronto, New York.

Works of Art by 12 Famous Artists

SOMETIMES a magazine varies its plan of makeup for a single number, in a way that makes that issue unique. The Cosmopolitan, published one number some months ago filled entirely with contributions from women. In the same way the May issue of the Cosmopolitan will be noteworthy on account of the change in the style of illustration. With hardly an exception, the number is entirely made up of original works of art and all by the best artists that could be found. There has never been a number of any magazine that contained so high a class of illustration, and the names of Walter Crane, the English decorator, W. M. Chase, E. W. Kemble, F. Remington, C. S. Reinhart, etc., are enough to distinguish the issue alone.

A Cold in the Head

Is the beginning of catarrh, and catarrh often lays the foundation for consumption. The last disease may be avoided by curing the first two, either of which yields at once to Clark's Catarrh Cure, price 50 cents. It clears the head, restores the sense of smell, and drives away that dull headache which all experience who have Catarrh in any form. One package of Clark's Catarrh Cure will work wonders. If the druggist has not got it, send price direct to Clark's Chemical Company, Toronto or New York, and the package will be sent by return mail.
